

Hitesh Jonnalagadda

Security AI Product Manager | AI Agents, Copilots & Enterprise Security
(646) 257-1275 | ivsaihitesh@gmail.com | [linkedin.com/in/saihitesh](https://www.linkedin.com/in/saihitesh) | Bellevue, WA

SUMMARY

Security AI Product Manager with 6+ years across product, engineering, and enterprise GTM, building AI-agent, copilot, cloud security, identity/data security, and SOC automation products. At Microsoft, leads Security Store agent marketplace + **Microsoft Security Copilot** strategy across **80+ agents** and a **25K+ reseller** channel; previously unblocked **\$4.5M+ ARR**, influenced **\$20M+ enterprise transformations**, and launched a GenAI recommender driving **\$2.4M revenue**.

AREAS OF EXPERTISE

- | | | |
|-----------------------------------|------------------------------|---------------------------|
| • AI-agent security | • Microsoft Security Copilot | • Governance & compliance |
| • Cloud security | • Data security | • Identity security |
| • Detection & response automation | • Platform integrations | • Enterprise SaaS GTM |

PROFESSIONAL EXPERIENCE

MICROSOFT

Redmond, WA

Product Manager, Security CxE, Microsoft Security Store | Feb 2026 - Present

- Scaled Security Store AI-agent marketplace from 16 to 80+ live agents in 9 months; owned roadmap toward 200 agents and positioned product for enterprise **AI-agent security**, governance, integrations, and partner ecosystem growth.
- Expanded partner signal program from **16 to 80+ partners**; influenced **Microsoft Security Copilot** inclusion in M365 Business Premium by converting customer discovery, analytics, and partner VoC into PRDs + opportunity scoring model adopted by leadership.
- Defined SMB beachhead segment (**60%+ of users**) and GTM across 4 distributors / **25K+ resellers**; improved publishing, discoverability, activation, and self-serve onboarding while shipping partner assets **8x faster (32 hrs to 5 hrs)**.

Security Solution Engineer, MCAPS TMG+ | Jul 2025 - Feb 2026

- Unblocked **\$4.5M+ ARR**, generated **\$2.8M+ pipeline**, and influenced **\$20M+ enterprise transformations** across 15+ Tier-1 accounts by reframing security from point tools to integrated E5 + AI readiness.
- Translated telemetry from 5+ Tier-1 customers into **12+ PRD inputs** for Sentinel/Defender/Purview; drove **35% MAU growth** and **40% alert-triage reduction** via Copilot integrations, detection workflows, and security automation.
- Built Copilot-based security agent prototype ranked **#2 of 13,491** at Microsoft Global Hackathon; drove **20% MoM Sentinel** usage growth by unblocking architecture barriers across 20-person team + 3 partner orgs.

OISIX RA DAICHI (TYO: 3182)

Tokyo, Japan

Product Manager | 2022 - 2023

- Launched U.S. DTC product 0-to-1 for \$1B+ platform; defined ICP, beachhead, and GTM, reaching PMF with 5,800+ subscribers and 40% MoM growth in 6 months.
- Orchestrated Generative AI recommendation platform using predictive analytics on journey-mapped data: **+55% MAU**, **\$2.4M incremental revenue**, and company-wide North Star metric adoption.
- Drove roadmap from 100+ customer interviews, JTBD, and structured A/B testing: **+35% retention**, **-25% CAC**, **NPS 45 to 65**; secured **\$1.2M follow-on funding** via cohort-backed exec case.

Sr. Site Reliability Engineer | Site Reliability Engineer | 2019 - 2022

- Led monolith-to-microservices migration of \$20M cloud platform (Docker/K8s, AWS/GCP); architected CI/CD across 20+ services, cut deploy time 65% and P0 incidents 45%, enabling 3x faster releases.
- Optimized multi-cloud infra via IaC; cut MTTR 40% and operational cost \$85K/yr while sustaining 99.99% reliability on \$2M+ daily transactions, building credibility with cloud/security engineering teams.

EDUCATION

Columbia Business School, MBA, Technology, Strategy & Product Management

Honors: Three Cairns Fellow; Theodora Rutherford Inclusion Award; Student Service Award; Second Year Fellow (merit scholarship recipient); Dean's Honors (overall MBA)

Leadership: Cluster President; VP Technology Club; Peer Advisor; General Management Association

Jawaharlal Nehru Technological University Hyderabad, B.Tech, Computer Science and Engineering

ADDITIONAL SKILLS

Security AI: Microsoft Security Copilot, AI agents, agentic AI security, SOC workflows, alert triage, detection/response, cloud security, identity security, data security, governance, compliance | **AI / Platform:** Generative AI, LLMs, RAG, LLM evaluation, copilots, enterprise AI adoption, marketplace strategy, partner ecosystems | **Product:** PRDs, roadmap, OKRs, prioritization, customer discovery, VoC, opportunity scoring, risk management, executive visibility, product analytics | **Technical / Tools:** Azure, AWS, GCP, Sentinel, Defender, Purview, SQL, telemetry, Tableau, Looker, JIRA, Aha!, ProductBoard, Pendo
